GOAL 6: CLEAN WATER & SANITATION

Our mission: Promote access to safe and affordable drinking water for all, encourage healthy behaviours at every level, protect and restore water-related ecosystems.

KEY ISSUES

On-going pressure on water resources in Central Asia
Excessive withdrawal decreasing freshwater supply
Increase in frequency and intensity of floods and droughts in Western Balkans

WHAT'S HAPPENING IN THE REGION?

46% of Roma people don't have access to toilets in Azerbaijan, climate change-related droughts will likely reduce water supply by 23% during the next 3 decades
Uzbekistan is withdrawing 10.1% of its freshwater reserves
42% of people in Tajikistan have no access to modern toilets

ACHEEIVEMENTS

We helped to restore Lake Prespa in the Former Yugoslav Republic of Macedonia, one of the richest freshwater ecosystems on the planet
3,000 people living in Georgia’s conflict zones now have improved sanitation infrastructure and clean water supply
With a flood forecasting and early warning system, Bosnia&Herzegovina is now more resilient

WHAT ARE WE DOING?

In Belarus, we helped to rehabilitate 14,000 ha of damaged peatlands
Solid-waste recycling scheme in Southeastern Turkey creating better living conditions for locals and 113,000 Syrian refugees
Cities across Turkmenistan promoting recycling and green-commuting with the help of technology
We are working to restore ecosystems and livelihoods around the Aral Sea
